

CRVS DSHE PROCESS

V1.3 | December 3rd, 2015 | A. K. Sabbir Mahbub

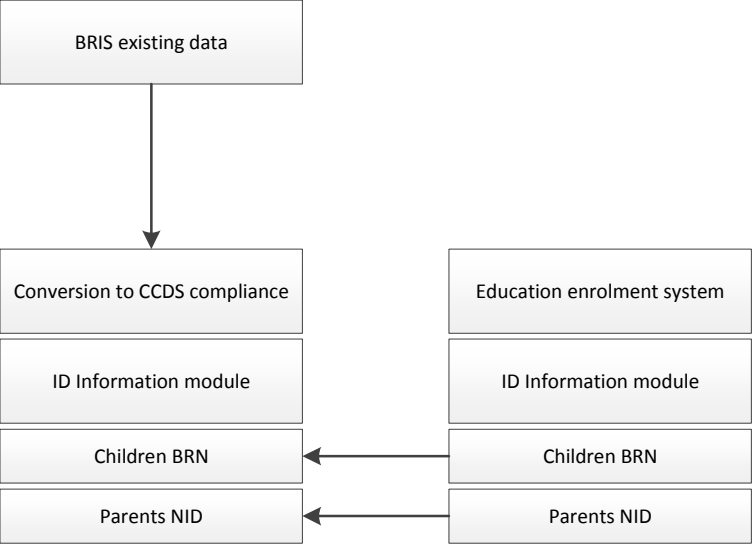

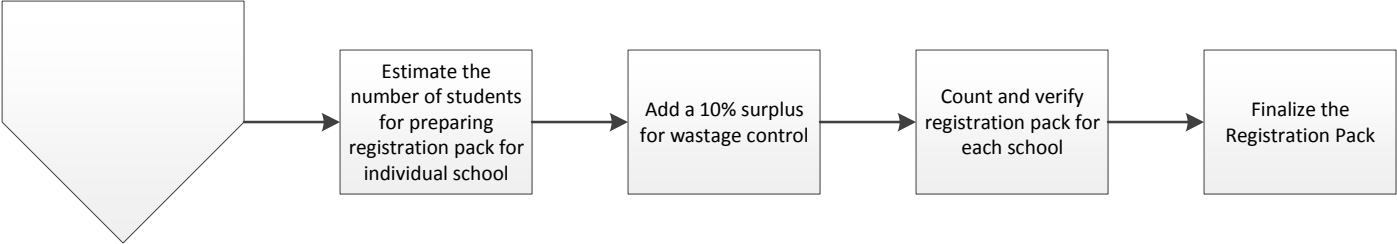

Note:
The ID documents education system wishes to give to the students will change the work process drastically
This process has changed based on DSHE’s claim the ability to process the data in school and availability of printer

Assumptions
All schools have PC/Laptop and printer with connectivity (Might provide desktop application)
NID will generate IDs and also provide API for identification of parents with missing NID documents through bio-metrics

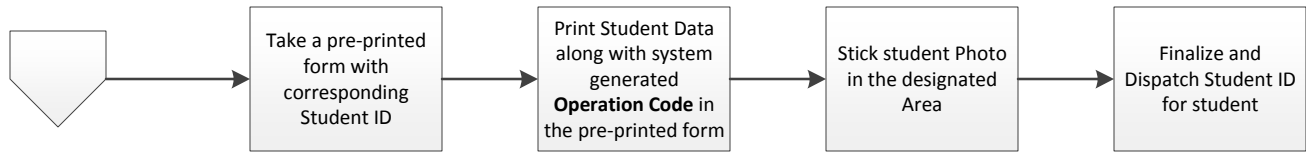

Note:
The ID documents education system wishes to give to the students will change the work process drastically
This process has changed based on DSHE’s claim the ability to process the data in school and availability of printer
ID will be generated by NID authority with Luhn checksum

Assumptions
All schools have PC/Laptop and printer with connectivity (Might provide desktop application)
NID will generate IDs and also provide API for identification of parents with missing NID documents through bio-metrics

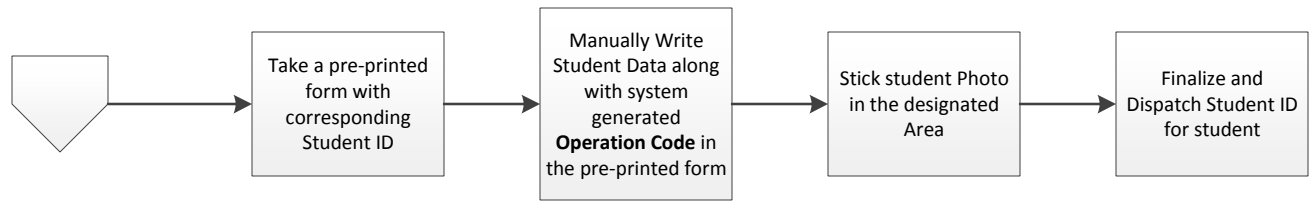

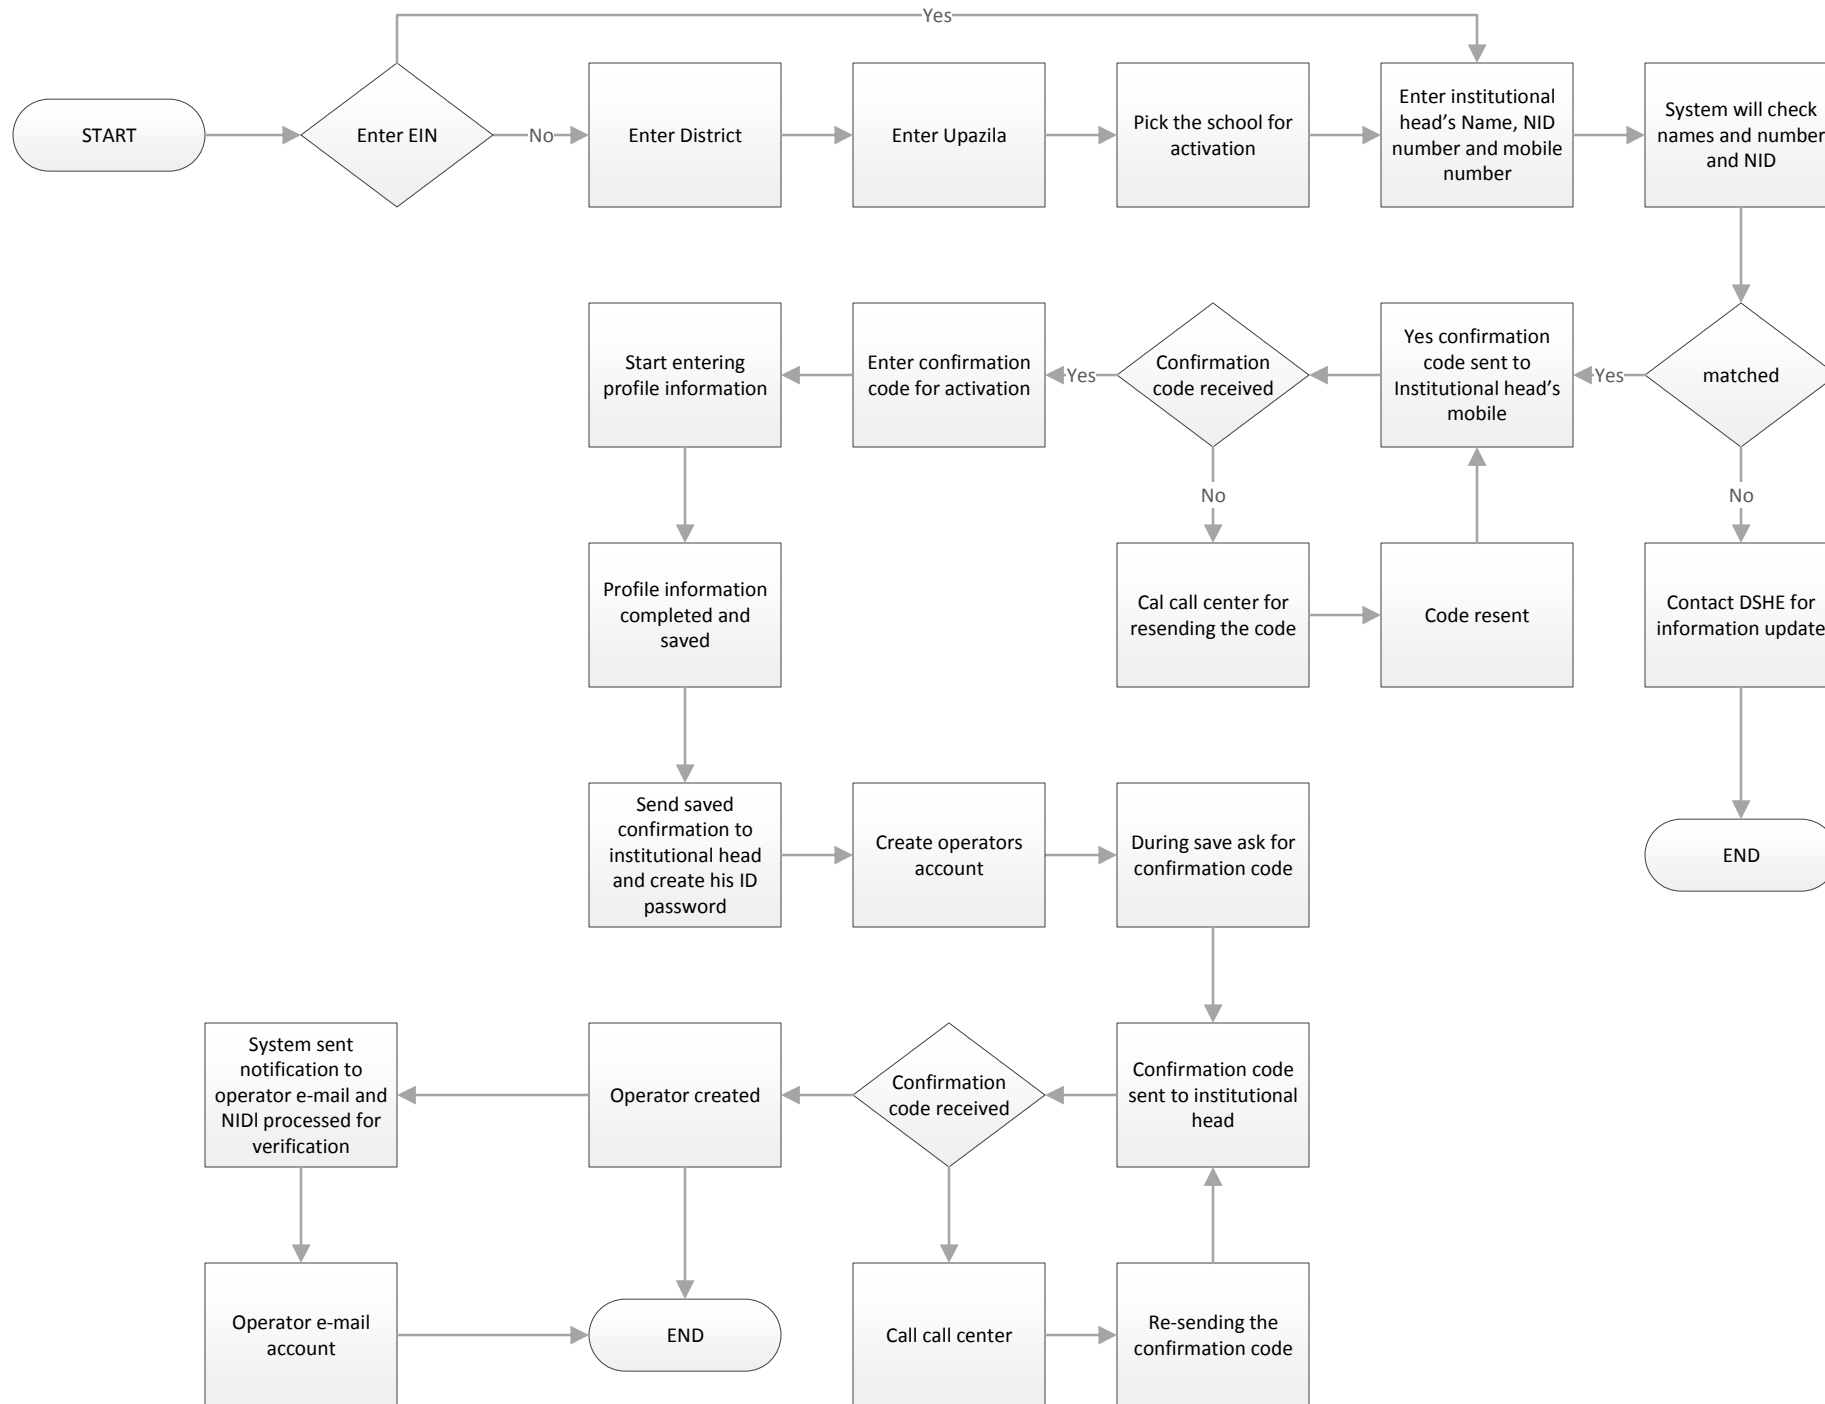

Scenario: If the school has Print facility

Scenario: If the school does not has Print facility

3 Tab: Students, Teachers

Onboarding a teacher
